Stewart Mott Home, Conference Room
122 Maryland Avenue, N.E.
Capitol Hill, Washington, D.C.

www.dataprivacyday2010.org

AN INVITATION FROM DIALOGUE ON DIVERSITY to join us for the opening program of 2010, the Colloquium on Internet Data Privacy – a study casting light on the specter of an encroaching technology – that of computers and the internet – hugely beneficial in itself, but threatening nevertheless to bring pervasive impacts on privacy in its train. Top-flight speakers explore this paradox in a series of topic segments, given over in turn to medical information, commercial data accretions, the insatiable curiosity of governments, the employment setting, and the sinister players in the merry world of social networking.

WEDNESDAY, JANUARY 27, 2010, 1:30 – 5:00 P.M.

THE WASHINGTON HOME OF STEWART MOTT, 122 MARYLAND AVENUE N.E.
