Harbingers of the Festive Times to come!

Dare to look ahead! The yearly road many times traversed, yet each time New in its Scenery and in the Goals we aim for. Here are the hopes that our speakers and all those excellent persons whose learning may benefit our own relationships and enterprises, may find the apt words, and proffer their carefully conceived thoughts — and every trick in the venerable way of successful learning, all to build rewarding life experiences with those others we meet in the way.

The year’s agenda: designed to look out over the strained land and the society that is busied putting its affairs back in order after the recent bouts with the Pandemic. And to refresh our carefully husbanded skills and the aspirations that drive us on. We look forward to welcoming you to our friendly seminars — and these end with a welcome social hour. We earnestly look forward to greeting you.
